

MEDCON'23

7TH & 8TH OCTOBER 2023, IVANA JAVAKHISHVILI STATE UNIVERSITY, TBILISI, GEORGIA

MEDCON'23 - "RESUSCITATE" was an unforgettable experience as a whole. More than labeling it as an event, it was a learning adventure.

The theme for the conference was Emergency Medicine.

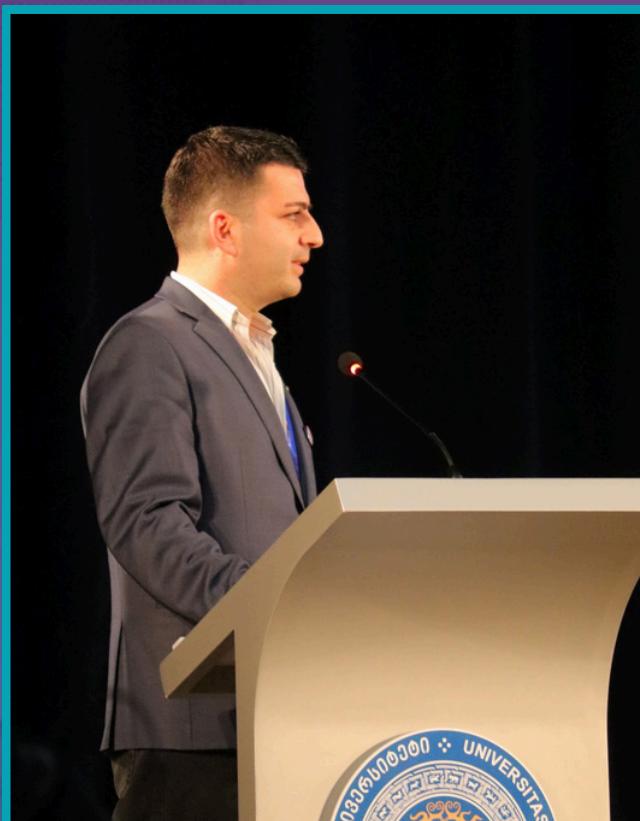

The conference was conducted for two days, the 7th and 8th of October, at Ivana Javakhishvili State University, Building 1, Second Floor, 1 Ilia Chavchavadze Avenue.

It was one of the biggest student conferences ever seen in Tbilisi, housing over a hundred participants .

7TH & 8TH OCTOBER 2023, IVANA JAVAKHISHVILI STATE UNIVERSITY, TBILISI, GEORGIA

Our last speaker for Day 1 was **Dr. Marcos A. Sanchez-Gonzalez**, a doctor, CEO, Researcher, and Professor talked about research and approaches to do research. He is currently the Vice President and Chief Scientific Officer at Dr. Ferrer BioPharma, FL, USA.

DAY 2

A speech on ultrasound in emergency practice was given by **Dr. Tina Makharadze**.

Dr. Tiko Kutchukhidze an obstetrician and gynecologist who is a Diana Award recipient. Apart from the ABC of gynecology as a whole, her lecture spoke on various emergencies in the field of obstetrics and gynecology.

Dr. David Modebadze was the next speaker on the stage, with an informative seminar about secondary complications of trauma.

Dr. Alexander Khelaia, a well-renowned professor in urology with an MD and PhD. The presence of emergency cases in urology with complicated UTIs and stone diseases was spoken about.

The final talk of the day revolved around emergent infectious diseases . **Dr. Tahseen J Siddiqui**, an Infectious Disease Consultant, was gracious to present the topic to the attendees. The importance of rapid diagnosis, empiric treatment, and source of control was mentioned in the talk.

MEDCON'23

7TH & 8TH OCTOBER 2023, IVANA JAVAKHISHVILI STATE UNIVERSITY, TBILISI, GEORGIA

The final, yet a very interesting part of the day were four workshops. Productive and informative workshops were the essence of the evening.

ADVANCED TRAUMA LIFE SUPPORT (ATLS) WORKSHOP:

This was directed by Dr. Nika Zirakishvili. Students were taught the initial assessment and resuscitation of a trauma patient.

GYNECOLOGY WORKSHOP:

This workshop was headed by Dr. Tiko Kutchukhidze. During this workshop, she taught and demonstrated some gynecology examinations, speculum examination, techniques in performing bacterioscopy . She also enlightened students on different forms of contraceptives and demonstrated Leopold's maneuver.

MEDCON'23

7TH & 8TH OCTOBER 2023, IVANA JAVAKHISHVILI STATE UNIVERSITY, TBILISI, GEORGIA

MENTAL HEALTH EMERGENCIES WORKSHOP:

This was conducted by **Dr. Mariamy Chrdileli**. During this workshop, students were taught how to handle mental crises. At the end of the workshop, students were divided into groups and were asked to volunteer and act out different scenarios while other students managed the situation.

SUTURING WORKSHOPS:

Members of GIM-SOC were the major pillars of making this workshop a reality. Porcine legs were used during this workshop. Students were taught how to clean, irrigate, and suture the wounds present.
